Grünwald's Apparatus for testing and estimating the value of all Forest- and Agricultural seeds, sorts of corn etc., at $ 1.50 a piece.

Sortiments:

About 50 sorts	Seeds of pine-wood for collections and schools in small glass-tubes	$ 10.—
„ 50 „	Seeds of pine-wood for experiment-sowing	$ 10.—
„ 100 „	Seeds of leaved-wood for collections and schools in small glass-tubes	$ 12.—
„ 70 „	Seeds of leaved-wood for experiment-sowing	$ 10.—
Cones for collections and schools		$ 100.—

All prices are understood per cwt., resp. lb, in American dollar currency, free station Wiener-Neustadt, packing charged separately at cost-price, 3% export-tax to buyer's charge, ready cash without discount, without obligation. Crop-failures, bad or non-delivery on the part of our collectors relieve us from the obligation of delivering. All our seeds are carefully tested before despatch; we nevertheless recommend our customers to closely inspect them immediately on receipt. We acknowledge claims only, if made within 30 days after receipt of the seeds, at any rate before planting or re-sale.

We beg to draw your attention to the fact that the Government of the United States prescribes a special permit for importing seeds and we beg you therefore, in case of order, to inform us of the number of your permit to prevent delays and annoyances. For small quantities we recommend mailing in postparcels, in which case a permit-number above 10.000 ought to be claimed.

We beg to let us have your quotations for all American tree-seeds you are disposing of, as we are in the market for considerable quantities of same, especially:

Pseudotsuga Douglasii, Picea Sitchensis, Picea pungens, Maclura aurantiaca etc.

H. Engel & Son, Vienna.
